FREEMAN forklift / rigging labor

LAS VEGAS CONVENTION CENTER RIGGING REGULATIONS

Please carefully read these regulations. The Las Vegas Convention Center will strictly enforce these rules.

1. Any object over 250 lbs. or requiring chain motors must be submitted to Freeman for approval by the Las Vegas Convention Center.
2. All rigging plans must be submitted to the Rigging Manager at Freeman 21 days prior to the start of rigging installation for group submittal to the LVCC.
3. All rigging plans must state the structure of rigging, weights, and an overlay of the rigging within your booth space. Freeman is required to reflect the plot plan for all booths on the overall ceiling plan for each show.

The exhibitor will be charged \$94.00 per hour straight time to transfer the plot plan to the overall ceiling grid that Freeman is required to submit to the Las Vegas Convention Center for approval.

All files should be in DWG format. VectorWorks and PDF format files are not acceptable. Any conversion to DWG will be charged to the exhibitor at \$94.00 per hour straight time.

4. The exhibitor will provide the certifications for all hoist motor and rigging apparatus to the Director of Engineering upon request by the Las Vegas Convention Center.
5. All special and unusual weights, motors apparatus or items not normally hung must obtain written permission from the Director of Engineering. Exceedingly large rigs that support abnormal loads, or non-uniform distribution of weight or hardware, may require (at the exhibitor's expense) plans that have been approved and stamped by a licensed engineer selected by the LVCVA.
6. Any weight load exceeding the pre-approved limits is subject to removal at the exhibitor's expense.
7. Freeman cannot hang any object prior to approval from the Director of Engineering or his/her representative.
8. Weight on the catwalks will not exceed over 25 pounds per square foot.
9. There will be no rigging under the catwalk structures.
